Finance: Shows labor distribution percentages for individuals in your area of responsibility. This includes people on your team that are charged to other organizations **and** people in other organizations charged to your funds. If you have AOR for students, you will see LD for all students, not just those in your organization or on your funds.

LD on FF/SP: Shows labor distribution percentages for individuals within your area of responsibility AND those with any percentage charged to any of your faculty funds/sponsored projects(s).

Labor Encumbrance tab on the SP/FF dashboard shows estimated salary amounts. Payroll Actuals (under the Other Information section in the Finance Dashboard) shows actual payroll dollar amounts paid out.
